

Egelston Road Policy

Egelston Township will make every effort to budget funds annually to support our road policy.

Whereas it does not appear that a township wide or county wide millage is desirable at this time, roads can be funded through a match program with Muskegon County Road Commission or Special Assessment districts either of which will require funds to be available through Egelston Township.

Understanding that we have no authority over the County road system all recommended projects that are presented annually by Muskegon County Road Commission will be evaluated based on the following method:

1. Safety
2. The funds for the project are available in the Township budget.
3. The recommended projects must be partially funded by the Muskegon County Road Commission.
4. Traffic flow
5. Economic growth
